No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

C; Comment: Frolines at the third position of the tripeptide repeating unit (G-X-Y) are h;
C; Comment: The type III collagen molecule is a trimer of identical chains, linked to each
C; Comment: The type III collagen molecule is a trimer of identical chains, linked to each
C; Comment: The type III collagen molecule is a trimer of identical chains, linked to each
C; Comment: The type III collagen molecule is a trimer of identical chains, linked to each
C; Comment: The type III collagen alpha 1(II) chain; fibrillar collagen carboxyl-terminal homology;
C; Keywords: collagen alpha 1(III) chain; fibrillar collagen carboxyl-terminal nonhelical telopeptide
